

An Introduction to Russian Business Law

Lidings, the Russian law firm dedicated to advising foreign companies on all aspects of Russian law, has recently authored the title *An Introduction to Russian Business Law*. Published by Aspatore Books, a Thomson Reuters business, this book discusses key aspects of Russian business law, providing an overview of theoretical legal issues as well as concentrating on practical areas of the law and analyzing recent findings from court cases.

Along with descriptions of the major fields within Russian business law, such as corporate, foreign investment, competition, employment, litigation, and arbitration, this book emphasizes the legislative regulation of specific business areas, including mining, banking and insurance, telecommunication, pharmaceutical, construction, retail, and others.

The authors also focus on more practical topics, from conducting legal due diligence in Russia to providing recommendations to investors on what corporate structure to choose.

Comprised from the knowledge and expertise of Lidings partners and associates, this book will be of interest to legal practitioners, industrial investors, managers, and other businesspeople interested in investing or working with Russian partners. Written in clear and understandable language, this work is necessary reading for anyone involved in Russian law.

The book is written by Lidings' lawyers and published by «Aspatore books», a Thomson Reuters business in 2010.
